Business Type

Digital education technology (EdTech)/Career counselling platform

Introduction

Rahbar is a digital career counselling platform that provides structured, personalized, and affordable career guidance. It helps students identify suitable academic and career pathway through AI-powered assessments and professional counsellor support. Customers receive guidance, recommendations, and career roadmaps rather than ownership of a physical product.

It addresses the common problem of career confusion among students after metric, Intermediate or Graduation. Students often struggle to identify suitable careers because of limited career counselling, parental, societal pressure, lack of reliable information and rapidly changing career opportunities.

Target Audience

⇒ School, College& University Students

- Matric students
- Intermediate Students
- Students choosing their degree or specialization
- Internship seeking students

⇒ Parents

- Career-conscious parents
- Professional guidance seeker
